

## *The Vortex of transition*

### *Socio - Political*

From Communal to individual  
Mobility vs location – loss of Belonging  
Hyper-individualism  
Sexuality - My body my rights  
Flattening of Authority  
Distribution of power  
Rise of the welfare State vs extended family – Anonymity vs Being known

### *Technology – new magic*

Industrialisation  
Computerization  
Information industry  
Robotics  
Big Data  
Artificial intelligence  
Virtual Reality  
Relationship to time and space

### *Psychological*

Loss of Subject – Object relationship  
Hyper-subjectivity  
Sentimental / emotive  
Identity loss - I am a machine  
Loss of Telos  
Perceptions of Time and Space  
Embodiment / location / belonging / loyalty  
Loss of Meaning and significance

### *Shift in philosophy*

Naturalism  
Loss of transcendence  
God is dead  
Loss of meaning  
Modernism  
Post-modernism deconstruction  
Hyper relativity  
Feeling as the new knowing

### *Economic - Consumerism*

Image - Identity  
Shaping of desire and expectation  
Value

### *Cultural transformers*

Cultural translation  
Film, music  
Social media
